ALLOY Cinquanta 50x50mm  
Mirror Polished Stainless Steel tile.

ALLOY Mosaic 20x20mm  
Mirror Polished Stainless Steel tile.

## ■ SLEEK. SOLID. UNIQUE.

The metal tile of choice for leading designers and architects from around the world, ALLOY metal tiles + mosaics are machined from the highest quality metals to maintain their integrity for a lifetime. Every ALLOY tile is individually punched from one solid sheet of the highest quality metal - providing a unique weight and a seductive tactility - delivering an immaculate finish to suit the most discerning designer

## ■ CLEAN + CONTEMPORARY.

Developed to fulfill a strong and growing demand by architects and designers for high quality metal tiles to work in concert with the clean, contemporary lines of modern residential and commercial projects, ALLOY tiles + mosaics lend a sophisticated shine and a luxe finish to any interior, exterior or landscape design, including swimming pools and water features.

## ■ PLAY WITH LIGHT.

Open up any space with a hint of ALLOY, or adorn every surface for an eye-catching, high impact solution. From the perfectly reflected finish of Mirror-Polished Stainless Steel to the deep, visual opulence of Milled Brass, ALLOY offers solutions that run the design gamut from subdued minimalism to Byzantine splendor.

Brushed Stainless Steel tile.

## ■ THE ORIGINAL METAL MOSAIC.

In 1998 ALLOY changed the face of mosaics by delivering the authentic, seductive sheen of metal for interior and exterior surfaces in a face-mounted solid metal mosaic tile. ALLOY was the first and is still the only company to use a solid 1.6mm material punched from a single sheet of the highest quality metal.

Designed and manufactured in Australia, each unique ALLOY tile style is subjected to rigorous testing to ensure a seamless finish coupled with long lasting strength and durability. ALLOY tiles, unlike low-grade copies, are long lasting and hardwearing and contain no backing mesh, plastic inserts or metal look-alike 'metallic' coatings so they won't dent, crack or de-laminate.

## ■ EXCLUSIVE STYLES + FINISHES.

With a commitment to leading product design and innovation, ALLOY has created an exclusive metal tile + mosaic range with more than 200 combinations of styles and finishes – machined from Grade 304 Stainless Steel, Copper, Brass, Raw Steel and Titanium. To ensure the perfect surface, a full range of installation finishing pieces are available as well as a specially developed ALLOY adhesive.
