let it shine

Words by Viviane Stappmanns Images by John Gollings

Local talent in architecture, design and art collaborate with property developer Sunland Design Group to create a contemporary high-density residential building that plays with surfaces and materials to challenge the dynamic between public and private space.

contents

001 Cover + contents: Elements of YVE, a Sunland Design Group development on St Kilda Road, Melbourne. The building features a number of reflective elements from the angled glass façade, which is tinted blue, to the pink high-performance glazing, to the elevators, each covered in mirrored glass representing a different coloured gemstone; sapphire, ruby, emerald and amethyst. Photography by John Gollings.

002 Inside Cover
Guest artist, Deuce Design, interprets the notion of 'temporary architecture' with *What Am I?* Read the rationale on page 18.
