

# KISMET

40 X 60MM METAL TILE

*karim*

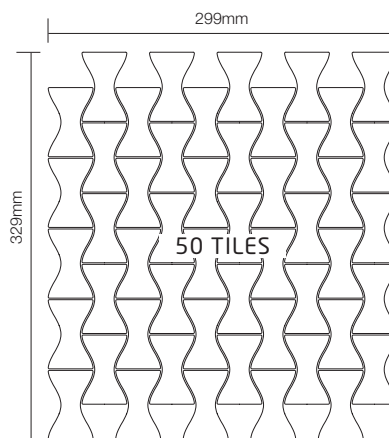

## TILE SPECIFICATIONS

|            |                   |
|------------|-------------------|
| WIDTH      | 40mm              |
| LENGTH     | 60mm              |
| THICKNESS  | 1.6mm solid metal |
| GROUT LINE | 1.32mm            |

- Designed by Karim Rashid exclusively for ALLOY. One of eight innovative designs that play with the idea of pattern, grid, and repetition. A contemporary statement for interior and exterior applications.
- Designed and manufactured from solid, high quality metal to create an unsurpassed metal tile finish to last a lifetime. Will not dent, crack or de-laminate.
- Face mounted for ease of installation, to protect the metal tile face and keep tiles in formation. The ALLOY developed system includes 2 layers of protective adhesive tape and film on the tile face. No backing mesh is used. See the [ALLOY Installation Guide](#) for details.
- Designed and made in Australia for consistent high quality.
- Diamond cutting discs are supplied which allow for very quick, low-burr cutting where necessary eg, edges, GPO's.
- Finishing pieces available to ensure the perfect installation where a full tile will not fit. ALLOY tiles are made from solid metal and have a specially chamfered edge.
- Grout - not required unless installed in a wet area. It is **essential** that an un-sanded, non-grit grout is used, we recommend Laticrete Smooth/1600 series.
- Adhesive - we recommend ALLOY One Pack Mastix (AOPM), available in black or white, specifically developed for ALLOY Tiles.
- Tile samples and AOPM can be ordered through [alloydesign.com.au](http://alloydesign.com.au)
- As a specialised metal tile, we recommend ALLOY tiles are installed by a DIY expert or professional tiler.

## TILE SHEET

11.57 tile sheets per m<sup>2</sup>

## FINISHING PIECES

Available on request.

\*NOT TO SCALE.

## SOLID METAL MATERIALS + FINISHES

**Product Substitution Warning:** ALLOY tile products have specific design characteristics to ensure an immaculate finish and product longevity, they have been slip tested and are backed by ALLOY service and support. Substituting ALLOY tiles for inferior products may compromise installation finish and project performance.
