Shining Star

Global design guru Karim Rashid used a variety of Alloy stainless-steel tiles in his design of this bathroom in the award-winning Semiramis Hotel in Athens, Greece. The bathroom plays with colour, shape and texture to lend it a continental feel with the mosaic tiles adding a touch of glitz and glamour to the space.

Slimline Savings

New from leading New Zealand shower and tapware company, Methven is the Satinjet Kiri. Hailed as an "unobtrusive showering solution that is subtle, sophisticated, yet high in performance and water-saving" the Satinjet Kiri features a WELS 3-Star rating and can produce 3000 droplets per second.

Twice as Nice

New from Kaldewei, one of Europe's leading bath companies, comes the Ellipso Duo. Symmetric design and two facing backrests provide the ultimate pleasure when bathing with a friend. As the name suggests, the bath reflects the elliptical concept as conceived by designers from Phoenix Design, Stuttgart and Tokyo.
